James Allen is Found Guilty of Murder in the First Degree.

Tranquillino Luna is the Nominee for Delegate to Congress.

Garfield's Tour—Great Enthusiasm from the People—21 Guns.

James Cahill fires a Harmless Shot at Mrs. N. Shilbim. Then Shoots Himself.

A Fifteen Day Fast for 200 Francs.—Stewart Visits Bender.

Special to the Gazette:

ALLEN FOUND GUILTY.

Santa Fe, August 4.—The jury in the Allen case were out all last night and brought in a verdict this morning of guilty of murder in the first degree. Allen's counsel made a motion in arrest of the judgement for a new trial. This motion will be argued to-morrow, and will probably be overruled, when Judge Prince will pass sentence.

Special to the Gazette.

LUNA FOR CONGRESS.

Santa Fe, August 4.—The republican territorial convention has just adjourned this sitting, from 2 to 6 o'clock this evening. Tranquillino Luna is the nominee for delegate. The platform is a straightforward and sound one. Universal satisfaction is expressed here with the result. In the convention there was no opposition.

New York, Aug. 4.—The Public will to-morrow omit its regular weekly table of clearing house exchange transactions, and publish that of the entire month of July instead. The Public comments thereon as follows: July has been a month of remarkably large business imports. It has been about as large as in June, and exports larger than in June, exceeding imports. Its probably about \$12,000,000 and the interior movement of products has been unprecedented for the season. For example, the movement of grain at Buffalo was incomparably the largest ever known in July, and the movement of cotton, considering the lateness of the season, was remarkably large. In manufactures also a very large business was done, and interruptions were few, and demand for the products seemed to tread closely on the heels of supply in nearly all important branches. An encouraging revival in the iron business was noticed; though it was due to the extraordinary demand of builders of new railways. In every part of the country the local retail trade was active also, without any dangerous upward rush in prices. July is usually one of the months in which transactions are the smallest, but in 1880, as in 1879, all ordinary rules appear to be disregarded in the resistance of the forward movement of commerce and industry. Changes for the month show an increase of 250 per cent. in the aggregate, though the comparison is with returns which show an increase of 209 per cent. over that of July, 1878. Outside of New York the increase is 198 per cent., though the increase in July, 1879 was 196 per cent.

Albany, August 4.—At every station between Utica and Albany when Gen. Garfield's train stopped, there were great crowds to receive him, and the General was forced to make brief speeches and thanks. At Schuettody the crowd at the depot was about 3,000. The train was received here by a crowd of several thousand, and a salute of twenty-one guns was fired. Congressman Bailey introduced the General, who said: Fellow citizens: I thank you for this great welcome, especially in this spot where the American Union was born in 1874. Benj. Franklin planted the seed of the Union in the little village of Albany, among Indians and whitemen that gathered here. I am glad to know

that seed has grown into this great republic and has carried always glory of the Empire state with it. Gen. Arthur was introduced but did not respond. He merely thanked the people.

Omaha, August 4.—Mr. Stewart, a railroad contractor of Blair, went to see the old man Bender to-day at Fremont, and on seeing him said: "That's old Bender." Stewart knew old Bender before leaving Kansas, and knew him well. He has no doubts but the prisoner is Bender. They did not speak to Bender about Stewart as he gets excited to mention Kansas. Crowds have been to see both the old man and woman to-day. He is very excitable, remaining cross and nervous two and three hours after conversing about Kansas. He frequently asks for a knife and persists he will not be taken to Kansas alive. Nothing new yet has been heard from the other two of the family but sheriff Gregg expects to hear to-night of their capture.

London, Aug. 4.—Gladstone continues to improve, although he is still weak.

Paolo, Kansas, Aug. 4. Dudley C. Haskell was nominated for congress to-day, by the republicans of the 2nd district by acclamation.

St. Louis, Aug. 4.—An express train, on the Wabash, St. Louis & Pacific Railroad was dived eight miles from Moberly this forenoon. Wm. Tilman, fireman, was killed; Frank Benville, engineer, dangerously scalded; his brother, who was riding on the engine was also seriously scalded.

San Francisco, August 4.—Jas. Cahill, assayer, this afternoon fired a harmless shot at Mrs. N. Shilbim, then shot himself through the head. The cause is unknown.

Dennis Hays, a milkman, was shot dead by Michael Dolan, this evening in a trifling altercation.

Montreal, August 4.—Dufrenand, who is charged of the murder of a girl in California has been arrested in Ottawa district.

Salt Lake, August 4.—Ben Fasher, a noted horse thief convicted of murder in the first degree walked out over his guard barefooted and escaped.

Welcome and Emerson murderers of young Turner have been caught and convicted to the penitentiary to await trial.

In the election Monday the Liberals carried part of their ticket in two counties. There was no opposition to the church ticket in Salt Lake county.

Portland, August 4.—The Supreme court affirmed Judge Peter's ruling in the case of the Cumberland Co., Commissioner Prince against Killen, thus deciding against fusionists.

New York, August 4.—The Herald's Washington special says that the publication of Hancock's letter to Sherman, in reply to two written by Sherman in December 1876, having failed to fire the republican hearts, there is now loud demand for the publication of the two letters from Sherman, which called forth Hancock's letter. Sherman says he is not disposed to mix in the Presidential contest; but if the publication of the two letters referred will further benefit Hancock, or make more clear his letter to him then he has Sherman's permission to give them for publication.

Paris, August 4.—A young Physician of Lyons, began on Monday a fifteen days fast for 200 francs. If he does not succeed he forfeits 100 francs each day of failure.

Philadelphia, Pa., August 4.—Governor Hoyt, has a communication from the Secretary of State calling attention to the sale of bogus medical diplomas abroad. The diplomas was granted by the American University of Philadelphia for \$300 to Spanish citizens who never were in the University, and never resided in the United States. Papers have been laid before the State Attorney general.

WOOL MARKET.

Boston, August 4.—The wool market is unchanged, and the demand steady. Manufacturers and prices are well sustained. There was fair business doing in California descriptions at 27 @ 28 for spring choice; northern spring is very desirable and held mostly at 38 @ 40.

EVENTS IN NEW MEXICO.

An Interesting Letter from a Topeka Boy from Albuquerque.

The following is an extract from a private letter written by a Topeka boy, who is in New Mexico:

I will be in Topeka in ten days, and after a short stay shall return and go on to the A. & P. R. R. from here west. This road intends to begin track laying soon in earnest, and push forward as fast as possible toward San Francisco via Fort Wingate a Prescott. Everything is in reading now, and as soon as the washouts of here are repaired and the trail running once more, they will be track. It will pass through one of the wildest and most broken sections of country in America, and besides being an attractive place for tourists, it will be the best mineral producing country in the Rocky range. Their only drawback will be the one that has held in check all western roads, viz: the Indians. The Navajoes are now favorably disposed towards the modern civilization, and should they choose to make trouble, it can be very easily done.

We have not had a mail here for over a week, and from present indications it may be as much longer before it comes. Until the past few days, there has been no rain here for over a year, and when it did come it seemed to be making up for the past. The rain fell in torrents for hours, and small ravines, that were a few hours before dry and dusty, were transformed into raging floods, sweeping railroad track, bridges, houses, etc., before them, like so many leaves.

To come from Las Vegas here, a distance of 132 miles, it was necessary to make three long transfers of six to eight miles each, over a rough mountainous country. That "it never rains, but it pours" may be well applied to most of our western country. Along in the afternoon about two or three o'clock, you can see a small cloud rising over some distant mountain, and I have often noticed that inside of twenty minutes after appearing in sight the rain would be falling like a deluge and flooding the small section of country over which it passes. I believe that taking New Mexico's short rainy season, it would compare well with that of older States and would undoubtedly do as much good were it well distributed.

The mining interests of the Territory are assuming quite a boom and she will soon rank with most of the mineral producing states of our country. The New Mexico Mining and Improvement Co., have been doing a great deal of work in the White Oaks region during the Summer and have met with most gratifying results. One mine, the Great Prize, assays \$416 gold and 13 per cent. lead, with a 26-inch vein which can be easily worked. This mine, with a number of others, are owned by members of the engineer corps of the Santa Fe road who hail from Topeka. Carbonates have also been discovered in the same region, and there is every prospect of its becoming one of the most prosperous camps in the country.

The Santa Fe road is pushing its way southward and by next Spring will probably cross the old Mexican line on their way to meet the eastern extension from Guaymas.—Commonwealth.

Died.

Of consumption, in West Las Animas, on Tuesday, July 27, at 8 p. m. James Oscar Belmonte, aged 23 years.

The deceased was a son of James and Ann Belmonte, of Calais, Maine where he was born in 1857. In September last he left New York City, where he had been engaged as telegraph operator, and came to Colorado for his health. receiving considerable benefit from the climate, he took charge of a telegraph office in Las Vegas. But declining in health he sought relief in Santa Fe, and then in West Las Animas, arriving in this place July 3d. Continuing to fail he telegraphed to Calais for his father, who arrived Thursday, July 22d, and attended to his wants till the hour of death. The funeral services were held last Wednesday at 2:30 p. m. in the parlor of the Carpenter House.

Deceased was a member of the M. E. Church, with which he united at Las Vegas. His integrity of character and skill as a workman always secured for him the confidence and esteem of his employers.—Leader.

Two new cottages to rent at the Hot Springs. Apply to the New York Clothing Store, East Las Vegas. 314-1f.

Go to M. Heise, on the south side of the plaza for fine wines, liquors and gars. 253-1f.

You can always rely on a square deal and get full value for your money at the store of C. E. WESCHE.

A car load of flour just received by T. ROMERO & SON,

The weight of this earth on which we live is computed at 6,069,000,000,000,000,000 tons. How much is that? Don't all speak at once.

The owner of a pair of bright eyes says that the prettiest compliment she ever received came from a child of four years. The little fellow after looking intently at her eyes a moment inquired, naively, "Are your eyes new ones?"

A party that moved last Saturday hung a Brussels carpet on the clothes line for an airing, and a goat came along and ate a couple of yards of it before he made the discovery that its flowers were not natural. The remarks of the owner on making the discovery are not printable.

"Yes," said a green girl at a show, "I know my beau goes out between acts, but he's nice and never drinks anything but a cup of coffee, because I can always smell it plain as day, and I know the smell of coffee from beer or whiskey, if I am a little bit green." It is a very happy thing for a young man to have a girl's confidence.

A large stock of "Rose of Kansas," flour and also native flour, at H. ROMERO & Bro's.

New Insurance Office.

C. R. Browning has opened an insurance office in the new town and represents the old and reliable Liverpool and London and Globe. The Home of New York and Springfield Fire and Marine of Massachusetts. He will also represent other companies and do a general insurance business. Parties wishing protection cannot do better than to patronize his agency. 1m.
